MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Meeting with Mr. Andrew Ruddock regarding
Involuntary Disability Retirement Regulation

This memorandum is for your information.

25X1 [redacted] and I met with Andy Ruddock this afternoon as a follow-up to the session in your office on the risks inherent to this Agency in the draft FPM provisions for appeals and hearings in involuntary disability retirement cases. Although no other security agency had raised the problem with Andy, he immediately understood the problem as we saw it and agreed that some provision would have to be made to protect security. We discussed various avenues of approach, and he ruled out a single escape clause as he felt this would be misunderstood and probably would not be acceptable to the Commissioners. Apparently there is a standing rule, if not a law, that any time such an exception clause is written and used it must be personally reported to the Vice President and the Speaker--obviously a real snarl. He understood our reluctance to use 102(c) to avoid a procedure which otherwise is afforded to Federal employees.

25X1 He asked us to provide appropriate language regarding protection of classified information wherever needed in their draft. This would occur at least in regard to the record, the representative of the employee concerned, and witnesses in a hearing. He is under some time pressure to get the proposed draft to the Commissioners, and we have agreed to come back with appropriate language in two or three days. [redacted] will take the matter directly to Dick [redacted] for the preparation of the necessary language.

[redacted]
Robert S. Wattles
